

P.A.L. Information

P.A.L. assistance applies ONLY to routine spay/neuter surgeries. Additional services (rabies vaccination, flea treatment, etc.) may be required by the clinic and are NOT covered by this program. Each clinic has it's own requirements.

Q. How old does my pet have to be to be spayed or neutered?

A. Vets have their own requirements. Some vets will spay or neuter if the pet is at least 2 months old or weighs at least 2 pounds. Most will spay/neuter your pet if it is at least 4-6 months old.

Q. My pet is pregnant; can she still be spayed?

A. This is up to each individual vet; however, most will if early in pregnancy. Additional fees may be required at owner's expense.
